1. Receipt is acknowledged of a preliminary amendment and prior art information statement filed January 14, 2005 for this application which is a 371 of PCT/CA03/01070 filed July 16, 2003 which claims benefit to CANADA 2394073 filed July 16, 2002.

Applicant is requested to amend the specification after the title to include the above information pertaining to the continuing data.

2. Claims 1-11 are pending in this application.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claim 9 and [10-11] are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims must be in compliance with 37 CFR 1.121(c). 608.01(n) Dependent Claims which requires (c) one or more claims may be presented in dependent form, referring back to and further limiting another claim or claims in the same application.

Claim 9 lacks antecedent basis since it is dependent upon claim 11.

Art Unit: 1657

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-11 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Lalande et al U.S. 6,908,507.

The reference clearly anticipates the claimed inventions as noted on column 6, line 55 – column 8 and the figure.

The effective date of the reference is April 13, 2001 based on the U.S. provisional 60/283,327.

5. **No claim is allowed.**

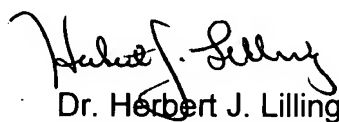

6. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Art Unit: 1657
